Hand Delivered

Dear Ms Laursen:

Re: Case #C.14-2008-0019

June 18, 2008 Agenda Item #80  
South Lamar Planning Area VMU

Per our phone conversation this morning, I am hereby submitting a written request for Agenda Item #80 to be taken on Second Reading Only tomorrow in order for me and any other interested party who signed the petitions on file to have a reasonable amount of time (no less than one week) to study the ordinance for this case as prepared by the City - a copy of which I am just receiving today - before the Final Reading.

As you will recall I requested a copy of this shortly after the First Reading for this case, and was told the person who would be preparing it was out of the office and that it probably would not be ready until shortly before the next scheduled hearing.

Thank you for your consideration of this matter.

Respectfully,  
Camille Perry
